Shirley Cunningham's Report Card

TO THE PARENT OR GUARDIAN	
<p>This report will be sent you monthly. Your signature does not necessarily indicate your approval of the pupil's work, but it is an evidence of your having seen the record.</p> <p>The attitude of your child toward his work is recorded on the preceding page. Impartial marks are always attempted; but should any dissatisfaction arise, you will do a great favor if you will consult with me directly and at once.</p> <p>You are cordially invited to visit the school. You will then not only better understand our methods and aims; your presence will encourage both teacher and pupil. Home and school must dovetail their influence if we are to produce an American citizenship of the worthiest order.</p>

An early photo of the South Evergreen School. It currently sits on this same location on Leonard Road (formerly River Road), although it is now surrounded by trees.

The Derial Rice and Sarah Burke Rice's family in front of their original log cabin built north of the Grand River. The South Evergreen School was constructed approximately 1866-67, in a hickory grove near this log cabin.

David Derial Rice died on November 13, 1868 at the age of 50, shortly after the South Evergreen School was founded.
