Berlin, Mich., Jan 18, 1897

My dear Lizzie,

Found yours on my return home Saturday. You don't know how good and how natural it seemed to hear from you. I may see you this week. Have planned to do so anyway. I visited Cossa Friday AM. She told me of your headaches and poor health.

The old days come back to me. They were happy days and I have wished for them a good many times. Flora and Jane both know how much I care for you. They do not mention your name to me. I wish you taught near here or that I lived near you. I think of you every day and a good many times in a day. I visited May Dimmock some time ago. I have four schools left in Polkton and four in Crockery to visit. One in Wright and two in Tallmadge and twenty-three on the south side. So you can see I have been busy and such roads as I have had. I have no more time thus xxx will close with love.

Your Dode
